## LIST OF FIGURES

---

Figure	Description	Page
<b>CHAPTER 1</b>		
1.2.1	Schematic of an Active Solar DHW System	6
1.3.1	WATSIM Family of Four - Typical Wednesday	7
1.3.2	RAND Average Hot Water Load Profile	8
<b>CHAPTER 2</b>		
2.2.1	Schematic of Overall Methodology to Assess Air Pollution	
	Externality Costs Associated with Electricity Generation	30
<b>CHAPTER 3</b>		
3.1.1	WATSIM Family of Four - Typical Wednesday	41
3.1.2	WATSIM Tuesday Water Draws: 10 and 300 Averaged	42
3.1.3	WATSIM Weekday Draws: Average of 900 Customers	
	Using Random Seed 1	43
3.1.4	WATSIM Tuesday Draws: Average of 900 Customers	

	Using 10 Random Seeds	44
<b>3.2.1</b>	WATSIM Tuesday Draws: Standard Deviations of the Average of 900 Customers Using 10 Different Seeds	46
<b>3.2.2</b>	WATSIM Average Electric Demand and Hot Water Draw Averaged for 300 Customers (Tuesday)	47
<b>3.2.3</b>	Peak Demand vs. Number of Households 4.5 kW Electric DHW On/Off Heater (0% Solar)	49
<b>3.3.1</b>	WATSIM Derived Average Residential Hot Water Profiles	50
<b>3.3.2</b>	WI Weekday and Weekend Average Hourly Hot Water Use	51
<b>3.3.3</b>	Average Daily Hot Water Usage	52
<b>3.3.4</b>	Average Hourly Hot Water Use for All Families	53
<b>3.3.5</b>	RAND Load Profile	54
<b>3.3.6</b>	Normalized Hot Water Draws Compared	55
<b>3.3.7</b>	WI, RAND and WATSIM Compared (Normalized)	56
<b>3.4.1</b>	TRNSYS Zip Heater Replacement	58
<b>3.5.1</b>	Random Hot Water Draw Profiles	61
<b>3.5.2</b>	TRNSYS Demand Profiles for Electric DHW Models	62
<b>3.5.3</b>	TRNSYS Demand Profiles for Solar DHW Models	63
<b>3.5.4</b>	Electric Demand Comparison of Five Random Load Sets	64

## CHAPTER 5

<b>5.1.1</b>	WEPCO of Milwaukee 1991 Load	76
<b>5.1.2</b>	August 1991 Milwaukee Temperature and WEPCO Load	77
<b>5.1.3</b>	Top Twenty 1991 WEPCO Demand Hours (& Temperatures)	78
<b>5.2.1</b>	WEPCO 1991 Load Duration Curve	80

<b>5.3.1</b>	WEPCO Peak Period Load Duration Curve	85
<b>5.3.2</b>	WEPCO Maintenance Period Load Duration Curve	87
<b>5.4.1</b>	Milwaukee, WI August 29 <sup>th</sup> , 1991: WEPCO Utility Load vs. Average Electric DHW for One Household	93
<b>5.5.1</b>	Peak (only) CCI Values of 1991	97

---

## CHAPTER 6

---

<b>6.2.1</b>	Comparison of Various Solar DHW Systems vs. Electric DHW 1991 Annual Electricity Requirements	106
<b>6.2.2</b>	1991 Monthly Energy Requirements for Various DHW Systems	107
<b>6.2.3</b>	1991 WEPCO Annual Energy Reduction of Marginal Plant Operation	108
<b>6.3.1</b>	WEPCO Peak Day (Thursday August 29 <sup>th</sup> , 1991) DHW Demand Comparison	111
<b>6.4.1</b>	1991 WEPCO Carbon Dioxide Monthly Emissions	113
<b>6.4.2</b>	1991 WEPCO Sulfur Dioxide Monthly Emissions	113
<b>6.4.3</b>	1991 WEPCO Nitrous Oxide Monthly Emissions	114
<b>6.4.4</b>	1991 WEPCO Oxides of Nitrogen Monthly Emissions	114
<b>6.4.5</b>	1991 WEPCO Methane Monthly Emissions	115
<b>6.4.6</b>	1991 WEPCO Particulates Monthly Emissions	115
<b>6.5.1</b>	1991 DHW Natural Gas Requirements for Various Solar DHW Systems compared to a Conventional Natural Gas DHW System	117
